Meeting Date: Monday 10:00AM, 9th of January 2023

Attendees:

Kieran: 10:00

Justin: 10:00

Emma: No show

Olly: No Show

Catchup

- Justin started working on the web side prototype, created sequence diagram for the image scoring process and created a readme file for the project and one for the web side specifically.
- Kieran started working on the presentation document. Working towards gaining Ethical Approval and created a paper prototype for the android prototype.

Meeting Overview

Discussed user testing – currently complications with Ethical Approval. Going to continue without user testing until approved and when/if approved, begin testing from current stage of development at the time. Can continue testing with the scorer portal(admin) at any time. Alternatively, test but not with target users, such as the client and perhaps other students.

Additionally, the work that has been done so far was reviewed.

To do until next meeting

- Kieran will finish the presentation document and start the android prototype.
- Justin will continue working on the web prototype and start working on admin UI wireframes.
