Meeting Date: Tuesday 11:00AM, 6th of December 2022

Attendees:

Kieran: 11:00

Olly: 11:00

Justin: 11:00

Emma – No show

Catchup

- Olly finished the admin and client authentication Sequence Diagrams, as well as, the scorer UI wireframe, but still needs uploading to Teams and GitHub
- Justin finished both client and server image saving Sequence Diagrams
- Kieran finished the ERD, but still needs uploading to GitHub. Kieran is also working together with the other teams to get ethical approval for user testing with the public

Overview

We caught up with what everyone has been doing, reviewed the project plan and Trello board and discussed what we must do next.

Next Sprint Plans

- Kieran says he will prepare the power point presentation and start working on the Android prototype
- Justin will start working on the web side of the drawing application prototype and take over Emma's work which hasn't been done
- Olly will start working on the scorer (admin) side UI prototype
